

Parish of St. Helier
Climate Change Emergency Working Group
Workshop 3

5th June 2019, 6pm, Le Capelain Gallery, Town Hall

Objective:

The objective of workshop 3 is to consider how the Parish of St Helier can use its influence and standing, beyond the services it provides, to change, challenge or persuade others to reduce their carbon footprint.

Workshop

The workshop will provide an opportunity to:

- a. To discuss and identify areas where the Parish may be in a position to change, challenge or persuade others to reduce their carbon footprint.
- b. Focus on areas where you feel the Parish can have largest impact in changing the behaviours of other businesses and the community.
- c. Having identified possible actions, to consider:
 - a. How easy / difficult it will be to deliver (1 being hard through to 5 being easy).
 - b. How significant the impact on the carbon foot print is likely to be. (1 being small impact through to 5 being major impact).
- d. Identify and consider any "quick wins".
